

Prestige Inhome Care's Palliative Care

**Stay in the comfort of home,
with pride and dignity.**

Prestige Inhome Care proudly employ professional and skilled nurses and carers, who understand the intricacies and challenges of supporting a loved one with an advanced or life-limiting illness.

Everyday our respectful carers support clients and their families to spend their last stages or final moments in the comfort of home with pride and dignity, surrounded by the people and things that they love.

Prestige's palliative care offers the same level of expertise and support as a hospice or hospital, but with greater choice and the comfort and privacy of your own home.

We can provide from 1 hour through to complete 24/7 palliative care.

Every aspect of in-home palliative care is tailored to each client.

- **Flexible and personalised**

Fulfilling a loved one's wish to live out their days at home can be stressful, challenging and often confusing. Prestige Inhome Care takes care of everything so you can focus on the things most important to you. Your Case Manager will help to tailor a flexible and unique support program, which is reviewed regularly to meet yours and your loved one's changing needs. Our Case Managers work with a Senior Nurse to oversee your care, ensuring smooth collaboration with your local Community Palliative Care Team.

- **Client centred care**

It is more comforting and dignifying to receive individualised care on a one-to-one basis in the comfort and

familiarity of home, rather than be one of many patients in the more clinical hospital environment.

- **Shared care facilitation**

We will work with hospice and acute palliative services such as: your GP and Hospital In the Home, Palliative Care Australia, Bethlehem, Eastern Palliative Care, South Eastern Palliative Care and Cabrini to provide seamless care and support. If you do not currently have a specialist Community Palliative Care team we will liaise on your behalf.

- **Supporting family and loved ones**

During such a difficult time, an important part of palliative care is supporting family and loved ones with hospitality, house work, meal preparation and organising bereavement services.

We aim to remove the stress felt by family and loved ones, so they are able to spend meaningful time together.

Who needs palliative care?

Palliative care can benefit anyone diagnosed with a life-limiting illness or condition, including cancer, Motor Neuron Disease (MND), heart or lung disease or other progressive illnesses.

To enquire about our services or to organise a free consultation, please call us on 1300 10 30 10 and our friendly team will be happy to help.
