

# Do You Require Transport?

## We Can Help.

### We can accompany you to/from:

- Medical/Specialist appointments
- Following a hospital stay
- Social outings
- Family events
- Weekly shopping
- Services available in Melbourne, Sydney and Sunshine Coast

- Prestige Inhome Care offers transport shifts from as little as 1 hour, any day of the week, at the exact time you need.
- Transport is provided by one of our qualified, highly trained carers in the comfort of their car (which are all covered by comprehensive insurance). Our vehicles can cater for walking aids.
- We have access to over 600 direct care staff, many of whom are in your local area, therefore we can assist at short notice.
- Our geographical coverage for transport includes Metro Melbourne, Mornington Peninsula, Geelong, Bellarine Peninsula, the Surf Coast, Sydney and Sunshine Coast.
- Prestige Inhome Care has 24 hour on call support, (7 days a week) which allows us to respond to queries 'after hours' and roster our carers into shifts the very next day.
- One of the many benefits of using Prestige Inhome Care is that we use the same carers for transport shifts as we do for personal and domestic support. Our carers can attend to other duties or errands in addition to driving you home.  
  
For example, we can collect scripts following a doctors appointment; accompany you to your home and make you comfortable with a cup of tea whilst we unpack the shopping, and even get dinner started. We will always try to ensure the same carer attends to all of your visits.
- We're proud of employing the most skilled, professional and friendly carers and nurses in the industry. All our staff are qualified, subject to police checks, thorough reference checks, undergo a rigorous induction process and complete ongoing training.

*If you have any questions regarding transport, please contact our team on 1300 10 30 10.*
