

Palliative Care

To enquire about our services or to organise a free consultation, please call our friendly team on **1300 10 30 10**

Prestige Inhome Care will support you and your loved one through life's most challenging moments.

Every day, our dedicated, compassionate and experienced palliative care team of nurses and carers provide comfort, dignity and support to you and your loved ones. We have a holistic approach to in-home palliative care, focusing on improving quality of life at any stage of illness.

Care Coordination

We work alongside GPs, hospitals, pharmacies, and specialist palliative care providers to ensure seamless, timely care.

Personal Care

We offer assistance with bathing, dressing, continence care, grooming, pressure area and mouth care, and skin integrity support.

Medication Management

Our nurses can administer end-of-life comfort medication or anticipatory medication, predict medication needs, support compliance, and liaise with GPs and pharmacies.

Domestic Support

Light housekeeping, laundry, and meal preparation to support comfort and routine.

Home Comforts and Family Support

We believe small things make a big difference - massage, baths, music, scents, styling hair, a personalised environment, the comfort of pets and friends.

We take time to create warm moments and help facilitate end-of-life wishes with compassion, calmness and understanding.

Home Equipment Support

Our team can organise hospital beds, pressure mattresses and other equipment to improve comfort, along with practical guidance for safe, effective use.

Reducing caregiver uncertainty, we can support families with upskilling in pressure area, mouth, and skin care.

Bereavement Support

We can support you with after-death care, funeral home liaison, equipment pack-up, and compassionate guidance.

Palliative Care

Why Choose Prestige Inhome Care?

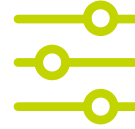

Shared Care
Facilitation

Dedicated Clinical
Consultant

Comfort
Focused Care

Support Through
All Stages

Live Phone
Support 24/7

For 20 years, Prestige Inhome Care has helped Australians maintain their independence in the comfort of their own home. We offer tailored in-home care with a vision to always exceed expectations.

Shared Care Facilitation

For support during critical moments and extra care when specialist providers are limited, we also offer the clinical knowledge to coordinate with GPs, community teams, and pharmacies.

We'll assist with hospital discharges, medication monitoring and essential supplies, ensuring families are not overwhelmed.

Dedicated Clinical Consultant

Your dedicated clinical consultant will work together with your family, care team and health workers, and regularly assess and respond to any changing needs.

Flexible Care Options

From shorter nursing visits for medication management, symptom checks, and reassurance for families, through to full 24-hour care, we can adapt to your needs.

Support Through all Stages

We walk alongside you through every stage of the palliative journey, offering calm, compassionate guidance and dignified after-death care.

Our best nurses and carers are there, with sensitivity and assurance, always putting the comfort of your loved one first.

We help families understand the end-of-life process, care techniques, and medication use.

We continue to support families through funeral home liaison, removal of supplies and equipment, and the notification of relevant services.

Facilitating Final Wishes

We strive to support meaningful moments - whether it's facilitating a visit to a special place, fulfilling cultural traditions, or setting up and maintaining a peaceful space at home.
